

## Flat Narrow Dark Wood Pivot Steel Door TR342

**CODE: TR342**

Pivot Steel Door Models

A narrow, exceptionally tall dark wood pivot leaf recessed into a concrete facade. Product code: TR342. Made to measure after an on-site survey.

### SPECIFICATIONS

|                     |                                                                                            |
|---------------------|--------------------------------------------------------------------------------------------|
| Leaf construction   | <b>pivot single leaf (narrow and tall)</b>                                                 |
| Color / finish      | <b>dark wood</b>                                                                           |
| Surface pattern     | <b>plain narrow panel</b>                                                                  |
| Handle              | <b>recessed handle</b>                                                                     |
| Design language     | <b>minimal pivot</b>                                                                       |
| Glass               | <b>Şişecam 5+5 mm laminated glass (impact resistant)</b>                                   |
| Mechanism           | <b>Floor- and ceiling-mounted pivot (rotating) mechanism</b>                               |
| Rotation system     | <b>Floor and ceiling bearings — no conventional hinges used</b>                            |
| Load transfer       | <b>Leaf weight is transferred to the floor, not the frame</b>                              |
| Rotation axis       | <b>Determined per project based on leaf width (central or offset)</b>                      |
| Floor preparation   | <b>Preparation is required where the bottom bearing sits — assessed during site survey</b> |
| Required clearance  | <b>Clearance is needed in both directions, as the leaf swings both inward and outward</b>  |
| Maximum leaf        | <b>Custom project-based sizing — tall and wide leaf production</b>                         |
| Sheet thickness     | <b>Frame 2 mm, leaf 1.5+1.5 mm DKP steel sheet (Ereğli A1)</b>                             |
| Frame               | <b>Ereğli A1 grade 2 mm DKP steel sheet, omega-bent</b>                                    |
| Frame reinforcement | <b>Lock area and bearing seats reinforced with 3 mm DKP steel sheet</b>                    |

### PRE-ORDER AND SITE SURVEY

When requesting a quote for this model, mention product code TR342. The site survey is free; once measurements are taken, you receive a written, itemized quote.
